

We're Ready to Help with Access to Capital for Hurricane-Affected Businesses

To New Jersey's Small Businesses:

We all know the effects of the hurricane and its aftermath have been devastating for small businesses throughout New Jersey. For many of you, water damage destroyed your inventory and storefronts. For others, lost power means lost revenue that may never be recouped. Business owners need cash to get back on their feet.

[UCEDC](#) is ready to work with you to help you get back to business as quickly as possible. We're a non-profit economic development corporation dedicated to providing loans to small businesses when conventional lending sources are out of reach.

Our [Microloan](#) program offers up to \$50,000 without any application fees or prepayment penalties. This program may be the answer if you don't require or can't qualify for larger loans typically offered by other lenders.

While we will apply our normal evaluation criteria to your application, our loan officers are prepared to give hurricane-affected businesses top priority in the application process. We know that a quick decision can mean the difference between a business surviving or going under. You can call us at **908-527-1166** to see if you qualify or you can go to our [website](#) to learn more.

Wishing you a speedy return to "Business as Usual".

Regards,
Maureen Tinen
President
